Screening of & discussion following:
"Raising Atlantis,

Restoring Jewish Heritage in Poland"

Yale J. Reisner, Founder & Director, *Ronald S. Lauder
Foundation Genealogy Project at the Jewish Historical
Institute of Poland, since 1994.

Poland's Jews, for centuries
the world's largest Jewish
community, constituted a
strong social and cultural force
within Poland and beyond.
That civilization was swept
away in the Holocaust. Yale
speaks of the work of the
Lauder Foundation,

as well as of a growing network
of institutions, initiatives and

individuals that are gradually
discovering, protecting and
restoring many Jewish elements
to Poland's historical and
cultural landscape.

**The Lauder Foundation is a non-profit Jewish educational foundation
active in 16 Central & East European countries.*
