JEWISH GENEALOGICAL SOCIETY OF MONTREAL

in association with the

JEWISH PUBLIC LIBRARY

presents:

Dr. Jack Hirschberg

The Crypto-Jews

The Crypto-Jews or Anusim were forced to convert to other faiths. With time, they lost much of their Jewish practice, but not their Jewish souls or their Jewish lineage. Today, about 100 million strong, they are being discovered and many are discovering themselves. It is a story of the power of Jewish resiliency and the wealth of Jewish genealogy waiting to be explored.

*****The meeting will be virtually shown via Zoom.
